Vinifikasjon

From spring 2022, our range will therefore change fundamentally. Instead of the Gutsweine and Ortsweine, from now on there is, in addition to our single site wines, only one other wine per variety. These wines are from our best sites, handpicked, spontaneously fermented and carefully composed. The "Aus den Lagen" line, produced solely from classified VDP.ERSTE and VDP.GROSSE LAGEN, is equivalent to the classic "second vin" in an international comparison. This new line allows us to focus on wines from clearly defined individual locations with even more rigour – true to our motto "Terroir down to the cellar".
